2021 FDH NFL Playoff Guide

For well over a decade now, FantasyDrafthelp.com has featured the UQB, or Ultimate Quantitative Baseline, as the most accurate measure of what a player achieved the previous season in fantasy production. The FDH Lounge now has a non-fantasy version of this statistic for team production: the most accurate version of how good, or bad, a team was during the previous season in fantasy production. Our core UQB statistic simply adds together the ranking of 10 different indexes: The FDH Lounge final power rankings for 2020, The FDH Lounge rankings for impressiveness of victories (based equally on a team's victories and the strength of the schedule that they played), strength of schedule based on the FDH power rankings, offensive yards gained, defensive yards allowed, time of possession, DVOA, Offensive DVOA, Defensive DVOA and Special Teams DVOA. Because the DVOA numbers are the property of Football Outsiders, rather than printing those, we will simply link to them: <https://www.footballoutsiders.com/dvoa-ratings/2021/final-2020-dvoa-ratings>
